mQuvée

Passion for wine. Wine for passion.

For hundreds of years, European wine producers have put their heart and soul into selecting grapes, harvesting and refining their yearly crops to create the perfect wine. A delicate work of decades which requires a lot of knowledge passed down through generations. When the bottle of wine finally leaves the winery it's not only the result of carefully selected grapes and hard work. It is the result of hundreds of years of history, heritage and endless passion.

One single mistake in the production or ageing process will ruin years of work and more importantly, several bottles of well tasting wine. That is why we kindly ask you to store your wine as it deserves.

Wine growers are specialized in growing the grapes and making the wine, but as mQuvée, we also put our pride in creating the best possible home preservation solutions for your precious bottles. Our wine cabinets are made to perfectly replicate the conditions of a wine cellar, in order for your wine to flourish and age with dignity. In other words, when you store your bottles in an mQuvée you can always be certain that the bottles are protected from temperature changes, vibrations, sunlight, unpleasant odours and kept at an ideal humidity level.

WineCave

WineCave is the series of under-counter wine coolers that, without a doubt, offers the perfect wine cooler model for your kitchen. Available with widths 15, 30, 40, 50 and 60 cm and door heights 700, 720,780 and 800 mm, WineCave can be matched perfectly to any kitchen size and style. If you want to go one step further, you can even customise your WineCave by using your own kitchen handle and putting your kitchen plinth in front of the cooler.

WineCave is designed to give your wine collection the perfect cooling experience. The wine coolers are equipped with carbon filters that prevent bad smells from developing, as well as wooden-pull out shelves that minimise harmful vibration. Low energy consumption and noise levels are a pleasant bonus!

WineKeeper

Go for a clean and cohesive look in your kitchen! mQuvée WineKeeper is a series of integrated wine coolers with seamless doors in anthracite black, white, and stainless steel. Choose the model that matches your kitchen cabinets - or choose a model that stands out and gives your kitchen a wow factor.

Apart from its beautiful design, WineKeeper excels in terms of energy efficiency and noise level. The wine coolers are equipped with wooden sliding shelves, a carbon filter, and changeable handles. Available in three sizes, you will have no problem finding the right fit for your wine collection - big or small.
