OVEN | 96

New: The TO 26 compact oven with a
grill function and much more besides.

SOUSVIDE | 42

The trend of award-winning
cuisine is becoming a trend
for every connoisseur.

THEMES

INNOVATIVE KITCHEN TECHNOLOGY

CASO is one of the first brands that addressed the fusion of the kitchen with the daily living spaces through mobile kitchen appliances. In recent years, we have continuously developed this basic idea and made it our mission to design products that positively affects your daily life: through strong functions, aesthetic shapes and simply good ideas.

We have entered many new areas and sustainably positioned ourselves as an innovative brand. We succeed especially through the use of modern technologies, a consistent design strategy and intuitive usability concepts.

All of these guiding themes are reflected back in our product categories. Discover modern, mobile induction hobs, multifunction devices and microwaves. The devices perfectly combine convection & grill function and open up a new creative version of cooking. To enhance the enjoyment of great food a good wine is a must. Watch out for perfectly tempered wine in the design series of wine coolers.

Simultaneously we understand CASO as a brand, which designs exciting trends. Nowadays green smoothies are belonging to a healthy nutrition. With a powerful rotation speed of more than 30.000 rpm CASO blenders ensure that the herbal ingredients are splitted and all of the vitamins, minerals and trace elements will be released.

Only like this green smoothies are really creamy and homogenous and ensures the desired explosion of flavours. Almond butter and other trendy recipes out of a healthy kitchen succeed in no time with our products.

CASO ANALOGUE SERIES

COMPACT MICROWAVES WITH INTUITIVELY SIMPLE OPERATING CONCEPT

CASO Analogue series

The CASO analogue microwave series stands for the simplest ease of use. Large rotary knobs with easy-to-read labelling permit the easy and direct adjustment of all microwave functions.

Design

The frosted dark grey housing that is rounded at the edges has a very high quality and modern appearance. The door can be easily opened and closed using the large handles.

COMPACT MICROWAVES

M20 ECOSTYLE

**Stylish kitchen assistant**

M20 Ecostyle combines a quality design with an intuitive operating concept. Indispensable in every household!

- + Microwave 700 watt
- + 6 power levels
- + Easy, manual operation
- + Approx. 20 liter capacity*
- + 30 min. timer and defrost
- + 24,5 cm glass turntable

Item 3307

COMPACT MICROWAVES

M20 EASY

Item 3309

That's why I'm easy!

The EASY-microwave has easiest operating comfort and a high-quality design-housing. Style & function in one device!

- + Microwave 700 watt, 5 power levels
- + **Easy operation, only two knobs**
- + Capacity approx. 20 liter*
- + 25.5 cm glass turntable
- + 35 min. timer and defrost

*in accordance with the manufacturer

CASO DESIGN SERIES

A VARIABLE SYSTEM WITH A TIMELESS DESIGN

Multifunctional, an all-rounder

The flexibility in everyday life is gaining more and more of importance. Cooking with CASO devices is now possible anywhere. With the CASO multifunction devices you are able to prepare dishes and cook food faster and with more energy efficiency than cooking it in a regular oven. The basic functions of microwave, convection and broiler, and many additional settings make it easy and delicious to prepare all the dishes of your choice: multi-functional, all in a mobile smart device.

Modern, timeless and intuitive design

Two things make this microwave series to a unique design experience: The excellence fully mirrored glass front, enclosed in a high-quality housing, and intuitive operation with self-explanatory icons.

Another example that clarifies the design principle of CASO: to make a product that seamlessly integrates form and function in the daily life, fulfill the technical demands and is simply to use.

20 LITERS OF PURE JOY - THE ENTRY INTO THE DESIGN SERIES

M20 ELECTRONIC 1 IN 1

A small microwave highlight

The M20 Electronic is technically and visually the ideal compact microwave with a mirrored front. The operation is very easy to understand through the pictograms. Many dishes can be prepared precisely with the 14 automatic programs. Also available in pure white edition.

Space saver

The flat drive technology for the turntable enables a more compact design for the housing

Item 3315 stainless steel

- + Microwave 800 watt, 5 power levels
- + Capacity approx. 20 liter*, interior stainless steel
- + Mirror front/ glass turntable

PERFECT COMBINATION

MG20 MENU 2 IN 1

Microwave & Broiler

Clear design, high-quality finishing: the MG20 menu with mirrored front is technically and visually the ideal compact device. All microwave dishes will turn out perfect. With the broiler function you will get the perfect crisp results.

- + Microwave 800 watt, 5 power levels
- + Broiler 1000 watt
- + Capacity approx. 20 liter*, interior stainless steel
- + Mirror front/ glass turntable

Item 3320 stainless steel

TOP PERFORMANCE IN SMALL SIZE

MG25 MENU 2 IN 1

Saves space, time and energy

With the MG25 Menu you heat up or cook your food quickly and efficiently, frozen foods or ready meals. Thanks to the 1000 watt broiler pizzas are perfectly crisp.

The fully mirrored door closes elegant with touch of the button, the functions with 10 automatic programs can be selected and controlled easily. Despite its compact exterior dimensions you can use on to the 27 cm turntable even large dinner plates.

- + Microwave 900 watt, 10 power levels
- + Broiler 1000 watt
- + Capacity approx. 25 liter*, interior stainless steel
- + Mirror front/ glass turn table
- + 10 automatic cooking programs

Item 3330 stainless steel

THE COMPACT SIZE WITH CONVECTION & BROILER

MCG20 CHEF 3 IN 1

Item 3340

Fully equipped

- + Microwave 800 watt, 10 power levels
- + Convection 2200 watt
- + Broiler 2200 watt
- + Capacity approx. 20 liter*
- + Interior stainless steel
- + Mirror front / glass turntable
- + 16 automatic cooking programs

BEST ALTERNATIVE TO A FULL-OVEN

MCG25 CHEF 3 IN 1

Item 3350

Item 3360
black

A full oven, just a bit more practical

The compact all-rounder can heat up, defrost, bake, broiler faster and more energy-efficient than a large oven. And the combination of microwave, broiler and convection oven in fine stainless steel housing with mirror front simply looks great.

- + Microwave 900 watt, 10 power levels
- + Broiler 1950 watt
- + Convection 1950 watt, 10 power levels up to 200°C
- + Capacity approx. 25 liter*, interior stainless steel
- + Mirror front/ glass turntable
- + 9 automatic cooking programs

PIZZA TRAY FOR MICROWAVES

CRISPYWAVE

This way deep-frozen pizzas or freshly made pizzas will become really crispy!

- + Active pizza tray for all appliances with microwave and fan-assisted functionality
- + Heat-storing active coating for crispy pizza bases
- + Preheat the pizza tray using microwave then bake using the combi function.

Item 3077

SO MUCH FOR SO LITTLE ROOM

MCG30 CHEF 3 IN 1

As a space saver

The multifunctional design microwave MCG30 chef with broiler and convection arranges and prepares culinary delights in the kitchen and is easy to use by the practical functions.

- + Microwave 900 watt, 5 power levels
- + Broiler 1200 watt
- + Convection 2200 watt, 10 power levels up to 200 °C
- + Capacity approx. 30 liter*, interior stainless steel
- + Mirror front / glass turn table
- + 9 automatic cooking programs

Item 3380 black

Item 3382 pure white

Item 3370

CRISPY BROWN THANKS TO DOUBLE BROILER

MCDG25 MASTER 4 IN 1

MCDG 25 master

Thanks to the double broiler pizzas, sandwiches and pastries will be perfectly done. An all-rounder with strong skills.

- + Microwave 900 watt, 10 power levels
- + Broiler / double broiler 1500 watt
- + Convection 1950 watt, 10 power levels up to 200°C
- + Capacity approx. 25 liter*, interior stainless steel
- + Mirror front / turn table
- + 9 automatic cooking programs

Double broiler

Item 3390

Item 3395 black

"OPERATING" CAN BE SO SIMPLE

wave DESIGN

Item 3333

Solid stainless steel design look

With the TMG 25 menu touch and TMCG 25 chef touch we pursue the consistent development of easy to-use multifunctional devices with an elegant designed housing. The aluminum front in Wave design with the Sensor-Touch-Menu applied edgewise convinces by function, operation and optics - a CASO product.

MICROWAVE & BROILER

TMG 25 MENU TOUCH

- + 900 watt microwave
- + 1000 watt broiler
- + 6 microwave power levels
- + Glass turntable
- + Digital clock
- + 14 automatic cooking programs
- + 1 combination program 30% microwave & 70% broiler
- + 1 combination program 55% microwave & 45% broiler
- + Timer with end signal (max. 99 minutes and 50 seconds)
- + Capacity approx. 25 liter*

Item 3333

Technology for more functions

The CASO Design microwaves have different technical functions. So we can offer you a device for your special requirements. TMCG 25 chef touch has an additional convection function, e.g. ideal for baking cupcakes or a crispy pizza.

MICROWAVE & CONVECTION & BROILER

TMCG 25 CHEF TOUCH

- + 900 watt microwave
- + 1950 watt broiler
- + 1950 watt convection
- + 6 microwave power levels
- + Preheat function
- + 10 convection temperatures 110 – 200 °C
- + Glass turntable
- + Digital clock
- + 14 automatic cooking programs
- + 4 combination programs microwave & convection
- + 1 combination program 30% microwave & 70% broiler
- + 1 combination program 55% microwave & 45% broiler
- + Timer with end signal (max. 99 minutes and 50 seconds)
- + Capacity approx. 25 liter*

Item 3353

Bilingual sensor-touch display

The microwave including the grill function is equipped with a bilingual, well-arranged Sensor-Touch-Menu. All functions can be intuitively controlled and easily selected.

Item 3356

Standard Technology

Power control by intervals with standard microwave technology.
Example: 50% power (450 watts)

Inverter = "genuine and accurate power control"

The inverter technology controls the power of the microwave incessant, consequently linear. So far, the performance of microwaves predominantly controlled by time - intervals: a low power level was reached by interrupting the non-controllable maximum power.

Inverter Technology

Linear power control with new microwave inverter technology.
Example: 50% power (450 watts)

Advantages: Gentle & accurate

The inverter technology enables the food to be heated up gentle and even in result. Thus, the flavor of the food remains intact.

Inverter Microwave Technology

A technical advantage for more quality. So far, different microwave powers been generated with intervals (temporal interruption of full power). The inverter technology controls constantly the power of the microwave, i.e. linear. As a result, the food is evenly heated and the power consumption of the microwave is reduced. In short: maximum efficiency.

Ceramic reflector base

The ceramic reflector base ensures an even distribution of microwaves, so that the food is cooked to perfection from all sides. The flat bottom is very easy to clean and also enables working with large square casserole dishes or cake-sheets.

Display / Operation

The display clearly shows the settings, programs and times. All menus are clear and easy to control.

Textured Black Glass

The surface finish in textured Black Glass gives the multifunction device a classy, timeless, contemporary, discreet appearance.

Automatic programs

Of course, all models are equipped with inverter technology with automatic function and menu programs. Perfect to succeed typical microwave dishes, or rather everything you would like in no time.

Door

The door can be opened like a regular oven door.

INVERTER TECHNOLOGY

IMG25

Item 3356 black / aluminium design

Fast & friendly!

The inverter microwave and broiler is available with approx. 23 liter. Your food is defrosted and heated evenly and gently through the inverter technology. You will be surprised by the performance - and the design!

+ Inverter microwave 900 watt

- + Broiler 1000 watt
- + Capacity approx. 25 liter*, interior stainless steel
- + Front brushed aluminium, Black Glas
- + Ceramic bottom
- + 14 automatic cooking programs

*in accordance with the manufacturer

Enjoyment with inverter technology

The version with inverter technology takes microwaves with grill and convection functions to a new level. The even heat development and distribution facilitates delicious cooking, baking and cooking results.

Item 3359 black / aluminium design

 CASO products compete with the very best. Many awards and test ratings provide proof of our quality. But the most important thing is the feedback of our customers!

CASO DESIGN
INNOVATIVE KITCHEN TECHNOLOGY

BUILT-IN DEVICES

BUILT-IN 2 IN 1 MICROWAVE & BROILER

EMGS 25 PREMIUM

The EMGS 25 PREMIUM of CASO is a very powerful, premium-built-in microwave with significant applications out of brushed aluminium. Design and function comply with the CASO Design philosophy in terms of clarity and reduction. With only 4 mm space between the wall of the cabinet and the frame the design has a maximum of high precision fit.

- + Built-In microwave with touch operation
- + Capacity approx. 25 liter*
- + 900 watt microwave
- + 1000 watt Broiler
- + 5 microwave power levels
- + 8 automatic cooking programs
- + ECO-Mode, defrost menus
- + Combination programs microwave&broiler
- + Glass turntable
- + Digital clock
- + Stainless steel interior
- + Internal light
- + Automatic door-opening
- + Accessories: grill rack, glass pan

Item 3345

Intuitive operation

The developed LCD display allows an improved intuitive and simple operation. The handle will be quickly forgotten with the elegant door opener by a "finger-tip". The device will be perfectly integrated in every kitchen because it fits perfectly to every surface.

BUILT-IN MICROWAVE & CONVECTION & BROILER

EMCG 32 – 38 CM NICHE DIMENSION

With the EMCG 32 CASO offers a very powerful built-in microwave with a large and bursted high-quality stainless steel frame.

- + Manual operation
- + Capacity approx. 32 liter*
- + 1000 watt microwave
- + 2500 watt convection
- + 1100 watt broiler
- + 5 microwave power levels
- + 10 convection temperatures 140-230 °C
- + 10 automatic cooking programs

INDUCTION-FONDUE - PURE ENJOYMENT

FONDUE

Enjoy perfect fondue. The induction technology ensures even heating of the high-quality fondue pot made of stainless steel and aluminium multilayered material. Very safe and clean - no open flame at the table. Ideal for oil and cheese fondue. Due to the very even distribution of heat cheese does not stick or burn to the pot – pure enjoyment.

- + Electric fondue and cooktop with induction technology for 8 people
- + Ideal as mobile cooktop, to keep sauces and soups warm or as a buffet special - also with other induction pots
- + Very consistent and uniform heating of the high-quality fondue pot: ideal for oil and cheese fondue: the very consistent and uniform heat distribution also prevents cheese from sticking onto the sides. Pure enjoyment is your guarantee.
- + Supply range: Stainless steel fondue pot and multi-layered aluminium material incl. splash guard, cooktop and 8 fondue forks
- + Very safe and clean - no open flame on your table
- + 60 to 240 °C temperature setting
- + Timer up to 180 minutes
- + Very quiet fan

3 in 1

Induction:
FonDue, wok and
table hob

Induction hob
ready to plug in 230V

Also ideal as a mobile
table hob to keep
sauces and soups hot
or as a special feature
of a buffet - including
with other induction-
compatible pans.

BUILT-IN INDUCTION

TWIN HOBS - FOR
MORE OR LESS SPACE

Induction hob
ready to plug in 230V

INDUCTION BUILT-IN

MASTER E2

With this built-in induction hob ambitious chef has a powerful double hob with 230V connection. It has a modern touch operation, large cooking surfaces and convenient features. A key factor about Master E2 is the unique and avant-garde look for the modern kitchen.

- + Induction hub with 2 hobs for assembly
3500 watt – 1500 watt & 2000 watt
- + 230 V plug in
- + Hold-function (setting protection / child safety lock)

Item 3041

ALWAYS FRESH!

MULTI-AWARD WINNING: THE CASO DESIGN VACUUM SYSTEMS SERIES

CASO DESIGN VACUUM SYSTEMS

QUALITY VACUUM

Using the new CASO DESIGN vacuum technology you can always enjoy your food fresh and in five-star quality. Discover the advantages of the innovative systems that offer many possibilities of redefining enjoyment and freshness in various designs.

EASY TO PROCESS

PREMIUM ACCESSORIES

Cook & tear resistant ribbed bags provide a perfect vacuum. They are available in four different sizes. The bags are suitable for microwaves and ideal for sous vide dishes.

TOP EXTENSIONS:

ROLL COMPARTMENT & CUTTER

An ingenious system: Insert the film roll into the box and unroll it like a kitchen roll to process it directly. Then cut it to the desired length with the integrated cutter, fill it and process the foods.

BEST QUALITY

"THE WINNER TAKES IT ALL"

CASO provides premium vacuum sealing. The VC 100 vacuum system is a test winner with the best vacuum sealing performance and its ease of use. The nice thing about this: The VC200 and VC300 perform equally well!

SAVOUR FOR LONGER

IN LOVE WITH FRESHNESS

Your food is safely vacuum-sealed at a vacuum capacity of approx. 90% at a pressure of -0.8 bar. They thus stay fresh longer without preservatives. Ideal also for the portioning & storage of goods or cooking à la sous vide.

DUAL WELD SEAM

UP TO 300 MM IN LENGTH

Up to two weld seams seal the product perfectly and in an absolutely airtight manner. The welding time can be additionally controlled by a function and facilitates the processing of different films (coffee, chip bags, etc.). Larger bags can be processed by means of cross-welding.

TEMPERATURE MONITORING

SEALED TO PERFECTION

The automatic temperature control regulates the heat to prevent the welded seams of the bags from melting or fuse with the device.

SET TO PERFECTION:

VACUUM REGULATION

The “Soft Vacuum System” function that regulates the vacuum strength guarantees the optimum vacuum for the goods. It is also ideal for the suitable and gentle processing of sensitive, dry or moist foods.

SOFT-VACUUM-SYSTEM SVS

WET, MOIST OR DRY

The adjustable sealing time facilitates a differentiated setting of the weld seam in order to ensure that wet, moist or dry food can be optimally and securely sealed.

CLEANING

REMOVABLE VACUUM CHAMBER

The removable vacuum chamber facilitates very easy cleaning. Liquid residues are retained in this and can be easily poured away after the vacuum sealing.

WONDERFUL PREPARATION

FOR SOUSVIDE DISHES

Meat, fish or vegetables can be cooked in a vacuum bag. The advantage: The foods cook in their own juices and become particularly soft and tasty. CASO DESIGN offers a coordinated system: The vacuum bags and film rolls are absolutely boil-proof. With the vacuum sealers you seal the filled bags with a double weld seam. Everything in the water bath of the SousVide cooker must be well sealed, as quality pays off!

SUSTAINABILITY & OVERVIEW

CASO FOOD MANAGEMENT

STICKER & APP

BETTER IN VIEW

CASO food management means sustainability and an overview of things. We supplement our vacuum bags and rolls with stickers for labelling and the linking of the CASO food management app. The QR code is used to establish a connection with the app. The overview of your storage is improved with the CASO food management app. In this way you can gain an impression of what you have in the refrigerator at any time and see what goods are available or need to be used up.

Stark, schnell und sehr einfach zu bedienen	

VACUUM SYSTEM WITH DOUBLE SEALING BAR

VC 100

Item 1380

The VC100 vacuum sealer seals bags with a double sealing bar. This is particularly useful when food is stored over a longer period, such as in the freezer.

- + Fully automatic vacuum system
- + **Double Sealing bar**
- + Max. 30 cm coil roll width at any length
- + Removable vacuum chamber
- + **Vacuum regulating** with stop button: perfect for sensitive goods
- + Electronic temperature monitoring of weld seam
- + Incl. 10 professional vacuum bags (20 x 30 cm)
- + Incl. vacuum hose for containers

AN ADDITION:
CUTTER AND FOIL ROLL BOX

VC 200

Item 1390

Based on the VC100 the VC200 offers the integrated Special accessories: with Foil dispenser and integrated cutter allows the foil rolls to be unrolled and cropped and quickly & easily processed.

- + Including 2 professional foil rolls (1 piece 22 x 300 cm, 1 piece 28 x 300 cm)
- + **With foil box for direct handling**
- + With fold-out cutter to cut off the film

6 STARS OF FRESHNESS

★★★★★★

VACUUM BAGS & ROLLS

To ensure that everything remains fresh for long and firmly closed, the quality of the vacuum foil is especially important. The special CASO vacuum bags & rolls are provided with a fine ribbed structure for an optimum and consistent vacuum. This material is heat- and tear-resistant and can be used as a Sous Vide or freezer bag. Ideal for long freshness and a long - time storage!

- + **Strong & tear-resistant at a foil thickness greater than 160 µ**
- + Ribbed structure (surface for an optimal vacuum)
- + Microwave use possible
- + Reuseable
- + No freezer-burn
- + Boil-proof

Vacuum bags

The vacuum bags are available in 4 different sizes, one packaging contains 25 or 50 pieces which can directly used.

25 pieces: 40 x 60 cm

50 pieces: 16 x 23 cm, 20 x 30 cm, 30 x 40 cm

Vacuum rolls

Very efficient due to variable cutting lengths. The format can be individually adjusted to the desired length.

Available in four dimensions.

6 m length: 20 cm, 27.5 cm and 30 cm width

10 m length: 40 cm width

ZIP bags

Triple practical: Reusable, dish washer resistant and very easy to use.

20-pieces-package:

20 x 23 cm, 26 x 35 cm, 26 x 23 cm

+ reusable only with the ZIP adapter set

+ Usable for: VC12/120/220/320

VACUUM ACCESSORY

CANISTER SET

- 3 canisters of different capacities
(0,18 gal/ 23,67 fl oz – 0,37 gal/ 47,34 fl oz – 0,53 gal/ 67,63 fl oz)
- Perfect for pressure-sensitive or liquid foodstuffs as tomatoes, salad, soups etc.
- The canisters can be re-used frequently.
- Material of the canisters is robust
- Lids made of SAN-plastics
- Break-proof and dishwasher safe
- Suitable for all CASO vacuum sealers
- Stackable and space-saving

SOUSVIDE

STAR-RATED ENJOYMENT

**Cooking with SousVide**

SousVide: Cooking "under vacuum" is becoming more prevalent also with hobby chef in private homes. The advantages are obvious: While cooking in a vacuum-sealed bag, the natural taste of food remains and doesn't get "lost" in the air or water, the meat is tender and juicy, nutrients, vitamins and trace elements are not lost and vegetables stay crisp and have an intense color. Also the marinating and seasoning before vacuum sealing achieves better results.

To use "SousVide" in the kitchen, you need a vacuum sealer and a cooking device that keeps the temperature constant during cooking time period.

CASO offers the SousVide center all-in-one device. The preparation of a Sous Vide dish is very simple. No experience is necessary in order to achieve perfect results. The actual dish is prepared by filling the bag. All ingredients like oil, spices and vegetables are welded in a vacuum bag and then cooked in a water-bath completely automatically at low temperatures. Another advantage of the gentle preparation is to preserve the delicate flavors. The taste remains embraced in the bag and keeps the food, especially meat, wonderfully juicy. Vitamins and nutrients are kept reserved.

Precise, consistent with excellent results - in contrast to conventional ovens or broilers, the cooking temperature is kept exactly, and can be adjusted in 0.1 °C increments.

All dishes are cooked to perfection and in an incomparable gentle way. For a perfectly-prepared steak, guaranteed medium-rare, simply set the SousVide Center CASO SV900 at 56 °C and add the vacuum sealed steak into the water bath. It's definite that with this method, nothing can be overcooked or burned, moreover it can leave unattended.

Even if the guests are running late, the dishes will be kept warm in the water bath without the being cooked further. So you are always absolutely "on time" and among the guests at the table, while the device manages all by itself.

Beef in particular is cooked to a T so it is wonderfully tender and juicy

The SousVide Stick turns almost every vessel into a Sous-Vide cooker

Item 1308

The dishes cooked in their own juice. The flavors are fully enhanced and vitamins are prevented from loss.

At 75 °C meat, fish or poultry dishes are wonderfully evenly done delicate in taste.

Meat or poultry can be browned before serving. The result: Perfect evenly cooked and juicy. Superb!

SOUSVIDE STICK

SV 200

- + SousVide cooker with internal suspension device for flexible SousVide cooking of star quality
- + Preserves all important vitamins, nutrients and minerals
- + More effective and efficient use of noble spices, aromas and oils
- + Suitable for almost all heat-resistant vessels
- + Timer function:
 - can be set for up to 2 hours at 1 minute increments and from 2 to 72 hours at 5 minute increments
- + Rapid heating of water able to be individually set from 45 to 90 °C at 0.1 °C increments
- + Constant temperature ensured by water circulation of 6 – 19 liters
- + Simple operation as a result of display with sensor touch control
- + Space-saving storage

SOUSVIDE CENTER

SV 500

- + Water circulation technology:
Perfect vacuum cooking in a water bath
- + FINETEMP – temperature accuracy in steps of 0.1 °C in the temperature range from 25 °C to 85 °C
- + Easy operation with digital display
- + Rapid water heating
- + Easy cleaning
- + 1 stainless steel rack

**Water circulation technology**

The water is pumped very evenly at a constant temperature through the container.

Item 1307

SOUSVIDE CENTER

SV 900

- + Low temperature cooking in a vacuum bag at constant and precise water temperature from 30 – 90 °C
- + Keeps all vitamins, nutrients and minerals
- + Effective and economical use of spices, seasonings and oils
- + **Intensive taste, especially for meat and vegetables**
- + Perfect Sous Vide cooking for intense aromatic star cooking
- + Water circulation technology:
perfect vacuum cooking in a water bath for up to 5 servings
- + Rapid water heating
- + **FINETEMP - temperature accuracy in steps of 0,1 °C in the temperature range from 30 – 90 °C**
- + Easy cleaning and emptying by a dewatering system
- + Easy operation with digital display
- + 2 stainless steel racks (for the bags)
- + Filter system
- + 1 water draining hose

Item 1306

- + **Optimum brewing temperature** – 96 ° C
- + Digital control with LED display
- + Keep warm timer function
- + Adjustable Timer
- + **AromaControl** (Longer water contact time for enhanced strong flavor)
- + **Removable water tank** (Tritan-material)
- + Glass carafe with rubberized grip for 12 cups
- + Non-stick hotplate
- + Gold tone filter and activated carbon filter (with filter display)
- + Automatic shutdown
- + Power: 1000 watt

NOVEA T2 and T4 TOASTER

- + Brushed stainless steel case with chrome accents
- + 2 or 4 slice toaster with extra large slots
- + **Front slot can be used individually**
- + **Toast with automatic motorlift**
- + LCD display with countdown timer
- + **9 browning levels**
- + Adjustable thermostat
- + Defrost, stop and warm up function
- + **Accessories: removable bun warmer**
- + Practical crumb tray
- + Automatic shutdown

NOVEA B4 BLENDER

- + **Powerful blender 1000 watt with 6.000-22.000 rpm**
- + Automatic functions
 - Stir – stir 6000 rpm
 - Chop – chopping 11.000 rpm
 - Mix – mixing 13.000 rpm
 - Liquefy – purée / smoothie 22.000 rpm
 - Ice crush – crush ice 17.500 rpm
 - Pulse – pulse function - 22.000 rpm
- + High quality carafe made of Tritan® - BPA free
- + 4-fold stainless steel blade
- + Flexible soft cover incl. measuring cup
- + **7 speed levels**
- + Safety switch

NOVEA B4 MIX BOTTLE ACCESSORY

- + **Convenient drinking bottle** with mixing attachment for use when doing sports, at work, breakfast, etc.
- + Suitable for all kinds of drinks like smoothies, fruit juices and cocktails, dishes, soups, sauces and dips, e.g. **"smoothies to go"** – freshly within a matter of seconds
- + 4-fold stainless steel blade
- + **Compatible with CASO NOVEA B4 design blender (Item no. 3612)**
- + Capacity: 600ml
- + **Safe pressure cap** – quick and safe capping of the bottle

COFFEE 1ONE

Real coffee experience

We have been wondering how to make a coffee filter machine can do more better. Therefore, we have developed a large control display with touch function for the new CASO Coffee One. It has a very modern style and the operating comfort is "State of the Art". The brewing system makes delicious aromatic coffee, which remains really fresh due to two selectable holding temperatures. Select the auto - timer function the coffee fragrance sweetens your morning!

- + Designer coffee machine with touch display
- + Optimum brewing temperature of 96 °C
- + 2 warming temperatures - for longer enjoyment
- + Automatic timer function
- + High-quality glass jug
- + Water level indicator, capacity 1,5 L
- + On / Off switch

Coffee filter no. 4

Item 1849

COMPACT COFFEE MAKER

COFFEE COMPACT

The aroma of high-quality coffee is best enjoyed when it has been freshly ground. The Coffee Compact by CASO is a grinder and coffee machine in one unit and impresses with its technology with a very compact design through its elegant stainless steel housing and the perfect coffee it produces.

- + Space-saving compact coffee maker with integrated grinder
- + Powerful 600 Watt impact grinder
- + For up to 4 cups of freshly ground coffee
- + Including Automatic 30 minute warming function
- + Also processes pre-ground coffee powder if desired
- + Two adjustable degrees of grinding to adapt the coffee aroma
- + Including a handy glass jug
- + Practical, integrated permanent filter
- + Integrated water container with easy-to-read scale
- + Automatic switch-off after 30 minutes
- + Easy cleaning as a result of a completely removable brewing unit and grinder

CASO COFFEE WORLD

FOR THOSE WHO RE-INVENT THAT
FEELING TO SAVOUR EVERY TIME

The preparation makes the difference. Starting with the manner in which the bean is ground and extending to the perfect brewing temperature.

WATER KETTLE

FOR AROMATIC COFFEE,
THE BEST TEAS AND MORE!

Precise Temperature Control

The exact temperature at a glance: with the PTK-temperature control the water can be heated up to the desired and selected temperature with a degree-accuracy in 10 °C increments from 10 to 100 °C.

The current water temperature is displayed. Perfect for preparation of various teas, baby food or water for hot bottles.

ELECTRIC KETTLE

WK 2100 COMPACT

- + **Powerful 2200 Watt**
- + High quality stainless steel housing
- + **Compact size with capacity of 1.2 litres**
- + **Precise temperature control for precise control of water temperature with cooking stop function**
- + Temperature control in 10°C increments from 40°C to 100°C – **ideal for the perfect preparation of tea and baby food**
- + Practical heat retention function
- + Safe thanks to automatic power-off function
- + Anti-scale filter that can be removed for cleaning

Item 1869

ELECTRIC KETTLE

WK 2200

- + Stainless steel water kettle
- + **Precise Temperature Control**
- + Keep warm function
- + Acoustic signal
- + Automatic shutdown
- + Water level indicator
- + Plastic water filter
- + Cable rewind
- + Capacity of max. 1,7 liter

Item 1870

STAINLESS STEEL WATER KETTLE

WK 2500

The precise temperature setting from 40 to 100 °C is ideal to match the water temperature to different uses.

- + Stainless steel design water kettle
- + Precise temperature control for the exact control of the water temperature in 6 steps from 40-100 °C, the display shows the water temperature – perfect for the preparation of tea and baby food
- + Sensor touch control
- + Warm-keeping function
- + Power: 2.200 watt
- + Capacity of max. 1,7 liter
- + Water level indicator
- + Acoustic signal
- + Cable rewind

Item 1871

STAINLESS STEEL INSULATING ELECTRIC KETTLE

VAKO²

The vacuum insulation of the kettle offers two advantages at once: The outer shell does not heat up and the boiling water stays hot for much longer.

- + **Stainless steel insulating electric kettle**
- + Handy single-handed lid
- + **Double-walled vacuum insulation:**
Heat reservoir as with high-quality thermal bottles, water will be kept hot for a very long time.
 - 2 h thermal insulation of 80 °C
 - 4 h thermal insulation of 70 °C
- + **Big cool-touch plastic handle**
- + Stable base station with overheat protection
- + Handy & energy-saving
- + 360° base station with cable rewind
- + Ideal for meetings
- + Capacity of max. 1,5 liter
- + Power: 1.800 watt

RAPID WATER DISPENSER

HW 400

The CASO HW 400 dispenses 100 ° C of hot water in a heating time of 5 seconds. Faster than the time required for the infusion of any tea.

- + Elegant design with application made of brushed stainless steel
- + **Saves time: 100°C in just 5 seconds**
- + Temperatures can be precisely set from 45 to 100°C
- + Easy procurement though a continuous quantity of water
- + **50% energy saving compared to kettles**
- + **Incl. water filter for perfect water quality**
- + Intuitive operation with rotary control
- + Removable water tank, capacity: 2.2 litres
- + Powerful 2600 kW

Hot water in a matter of seconds

The CASO turbo water dispensers heat the water to the desired temperature within the shortest imaginable space of time. A waiting time as you would expect with a kettle ceases to apply, meaning hot water is immediately available to you. This is very convenient as you save time.

Less consumption

A simple but sustainable principle: You only consume as much as you need. This is perfect to make a small cup of tea or withdraw water for a helping of noodles. This saves more than 50 % of energy compared to kettles.

Precise temperature

The temperatures of the turbo water dispensers can be precisely regulated. For instance, different teas require different brewing temperatures. Boiling water would destroy delicate green and white teas. Baby food is also no longer prepared at too hot a temperature.

Item 1863

RAPID WATER DISPENSER

HW 500 TOUCH**State-of-the-art design**

The HW 500 Touch turbo hot water dispenser has an easy to use touch control panel. Elegant design for any environment!

- + Elegant design with application made of brushed stainless steel
- + **Saves time: 100°C in just 5 seconds**
- + **Temperatures can be precisely set from 45 to 100°C**
- + Demand-based procurement: 100ml / 200ml / 300ml / continuous
- + **50% energy saving compared to kettles**
- + **Incl. water filter for perfect water quality**
- + Intuitive sensor touch control
- + Removable water tank, capacity: 2.2 litres
- + Powerful 2600 kW

TEA MACHINE

PERFECT INFUSION TIME – INTENSE ENJOYMENT

DESIGN TEA MACHINE

TEEGOURMET

Enjoy your tea - automatically and intense fragrant!

This fully automatic tea maker prepares tea in very traditional sense, according to brew-principle: The water boils at 100 ° C, the tea is poured, steeps the desired time and can be served in the glass jug. The removable stainless steel filter is easy to clean by hand.

- + Design tea machine
- + Brewing time setting of 2 to 16 minutes
- + 1 L glass teapot
- + Tea filter made of high-grade steel
- + Filter pot out of high-quality polycarbonate
- + Power: 1.200 watt
- + Automatic warming function of 30 min.
- + Anti-drip system
- + Water level indicator
- + On/off switch

WINE STORAGE WITH COMPRESSOR TECHNOLOGY

TASTE IS A QUESTION
OF THE TEMPERATURE.
SAVOUR EVERY AROMA
WITH CASO DESIGN.

Very easy to use with touch operating displays

Every wine has its own character, which becomes more enhanced during storage. The CASO Design wine temperature control and storage cabinets offer ideal conditions to this end.

PERFECT CONDITIONS

CALM STORAGE

Calm-running compressors on vibration reduction feet ensure the tranquility that is required for your wine. The temperature can be set between 5 and 20 °C per temperature zone. The new generation of wine cooler is operated via a state-of-the-art touch panel - convenience perfect savouring of the wine.

AIR HUMIDITY

CIRCULATION

The active ventilation ensures an air circulation in each temperature zone, which produces a even temperature. An ideal level of air humidity is created in each cooling zone, in interaction with the heat of the compressor and the air flows.

OPTIMUM TEMPERATURE CONTROL

PROFESSIONAL COMPRESSOR TECHNOLOGY

The compression method with individual and adjustable temperature regulation system makes an optimal long lasting climate for your good wines. Low-vibration compressor technology and special shock absorbers give the wine the calm environments it needs.

SECURE STORAGE

WINE PROTECTION

Light and especially ultraviolet light shine through the green glass bottles very quickly and affect the quality of the wines. The special UV protective glasses protect the wine from UV light.

* Specification of the bottle size based on a standard Bordeaux bottle
**The achievable value can not be above the ambient temperature at the installation location

PERFECTLY TEMPERED

WINECOMFORT SERIES (DOUBLE TEMPERATURE ZONE)

Shelves
The wine bottles are stored on easily extendable wooden floors.

WineComfort

- + Low-vibration technology gives the wine the calm environment it needs
- + High-quality wine storage with compressor technology
- + Two separate temperature zones, individually adjustable for white and red wine (WineSafe only one temperature zone)
- + Active fan for a very even temperature per zone
- + Storage capacity for up to 24 / 38 / 66 / 126 / 180 bottles* (up to 310 mm high)
- + Insulating glass with UV-filter, protects against loss of aroma
- + Excellent thermal insulation for energy-efficient operation
- + Electronically adjustable temperature from 5 – 20 °C**
- + White actual cooling zone temperature LED display
- + On-demand interior lighting
- + Timeless design with elegant stainless steel front and ergonomic door handle
- + Ball-bearing supported pull-out trays with wooden storage racks
- + Quite operation
- + Soft-Touch Control

* Specification of the bottle size based on a standard Bordeaux bottle

**The achievable value can not be above the ambient temperature at the installation location

THERMO ELECTRIC TECHNOLOGY

SAVOURING TOGETHER WITH FRIENDS

Wine tasting with friends? We recommend 2 white wines and two red wines – that have been kept at the perfect temperature in the WineDuett.

Thermo electric technology

The thermo electric technology allows precise control of the temperature by the thermal transfer technology. It was discovered by Jean Charles Athanase Peltier and is based on the phenomenon that when a current flow between two metallic conductors, a temperature difference arises. This technique is particularly suitable for smaller cooling devices and assures a good rapport between energy consumption, service life and volume.

The Winecooler for any occasion

The Wine cooler series WineDuett has all the facilities to enjoy your wine at the right temperature, or to store it. Two temperature zones can be adjusted independently between 7-18 °C / 10-18 °C, for example, white, red wine or other beverages.

WineDuett 12

WineDuett 21

THERMO ELECTRIC TECHNOLOGY

WINE DUETT

**WineDuett**

- + High-quality wine cooler
- + Tinted glass protects against loss of flavor
- + Sensor touch operation, elegant operation without opening the door (only touch models)
- + Two separate temperature zones, individually adjustable for white and red wine from 7-18 °C / 10-18 °C
- + Storage capacity for up to 12 or 21 bottles * (up to 310 mm high)
- + Low-vibration technology - gives the wine the calm environments it needs
- + Blue actual cooling zone temperature LED display
- + On-demand blue interior lighting
- + Extendable and removable shelves
- + Two cooling systems (WineDuett Touch 21 two doors)

* Specification of the bottle size based on a standard Bordeaux bottle

**The achievable value can not be above the ambient temperature at the installation location

THERMO ELECTRIC TECHNOLOGY FOR 6 BOTTLES

WINECASE 6

- + Mirror front with stainless steel strips
- + Touch panel, elegant operation without opening the door
- + One zone for white or red wine for up to 6 bottles *
(up to 310 mm high)
- + Adjustable temperature from 8 – 18 °C
- + Very low vibration and quiet
- + Blue LED lighting
- + Removable stainless steel shelves

Item 606

8 – 18 °C

THERMO ELECTRIC TECHNOLOGY FOR 8 BOTTLES

WINECASE 8

The wine cooler WineCase 8 is ideal to accommodate up to 8 bottles of wine at the desired drinking temperature for many different occasions. Invite your friends for wine tasting, a meal or to party!

- + Touch panel, elegant operation without opening the door
- + One zone for white or red wine for up to 8 bottles *
(up to 310 mm high)
- + Adjustable temperature from 7 – 18 °C**
- + Very low vibration and quiet
- + Blue LED lighting

Item 608

White wine: 8 – 10 °C

Red wine: 16 – 18 °C

7 – 18 °C

THERMO ELECTRIC TECHNOLOGY FOR 12 BOTTLES

WINECASE RED 12

The WineCase Red 12 wine temperature control device is the ideal companion for friends of high-quality red wine. It is perfectly designed for the needs of these fine wines. Savour your favourite wine that is always stored at the perfect drinking temperature.

- + Especially for storage of up to 12 bottles of red wine
- + Intuitive sensor-touch control
- + Elegant, handleless door
- + Temperature precisely adjustable from 10-18°C
- + Economical in consumption:
Energy efficiency class A
- + Modern, thermoelectric cooling
- + Very low vibration
- + Blue LED lighting and actual temperature display
- + Removable stainless steel shelves
- + Low operation noise

Item 613

COOL TECHNOLOGY FOR BEVERAGES

ICEMASTER COMFORT

- + Produces up to 13 kg of ice cubes in 24 hours
- + Rapid ice cube creation within 6 to 13 minutes
- + Good insulation
- + High quality stainless steel housing
- + Professional compressor technology
- + Coverlid with practical vision panel
- + Automatic shutdown
- + Large water tank volume 1.7 L

STAINLESS STEEL LINE TOASTER INOX

TOASTER WITH 2 SLOTS

INOX 2

Item 2778

- + Elegant design with top quality stainless steel
- + 2-slices-toaster with extra-long slots
- + Extra big LCD display which indicates the browning level
- + Precise settings with 6 browning levels
- + Adjustable browning level
- + Defrost, stop and reheat function
- + Accessory: Stable and large surface attachment for bread rolls
- + Practical crumb tray
- + Automatic switch off

TOASTER WITH 4 SLOTS

INOX 4

The toasters with stainless steel panelling of the INOX series have a tilted control panel so that the desired degree of browning can be perfectly set.

- + Elegant design with top quality stainless steel
- + 4-slices-toaster with extra-long slots
- + Extra big LCD display which indicates the browning level
- + Precise settings with 6 browning levels
- + Adjustable browning level
- + Defrost, stop and reheat function
- + Accessory: Stable and large surface attachment for bread rolls
- + Practical crumb tray
- + Automatic switch off

Item 2779

Practical crumb tray

Extra-long slots

SWEET OR SAVOURY?

ALWAYS DELICIOUS: CRÊPES & FRESH BREAD

DESIGN CRÊPES MAKER

CM 1300

For dessert, coffee break or for the birthday party: crêpes with an extremely thin bottom are always tasty. Bon Appetit!

- + Design Crêpes Maker with brushed stainless steel housing
- + **Extra-large cooking surface 33cm in diameter**
- + Modern cylinder design
- + Output: ca. 1300 watt
- + **Even heat distribution through sub-soldered heating element**
- + **High-quality ILAG non-stick coating**
- + Colour-changing LED to display temperature reached
- + 8 heat stages with practical slide controls
- + Batter spreader and wooden crêpes turner included

Item 2930

33 cm cooking
surface with ILAG non-stick coating

13 levels from soft to hard

This egg cooker prepares eggs in 13 different degrees of hardness. Just add water to the measuring cup, set the desired level using the slider and wait for the sound. The non-stick coated cooking bowl is easy to remove because of the carrying handle, so that the eggs can be served directly. Since the water is not completely evaporated, no residue appears inside (lime & minerals).

- + Removable egg holder for 7 eggs
- + Stainless steel design
- + Non-stick cooking bowl
- + 13 cooking levels, electronically controlled from soft- to hard-boiled
- + Indicator light with ON-OFF switch
- + Acoustic signal
- + Measuring cup with egg piercer

Item 2770

ELECTRONIC EGG BOILER

E9 EGG BOILER

Item 2771

+ Functions same as ED10
without steam cooker
attachment

ELECTRONIC EGG BOILER & STEAM COOKER

ED10

- + Optional use as egg boiler for up to 8 eggs or as a steam cooker for gentle preparation of fish, vegetables, potatoes etc.
- + **Electronic control of cooking time** – early shutdown, hence no dry cooking, no bad smells and no baking of water residues
- + Stainless steel design
- + LED indicator
- + Removable cooking insert
- + Transparent plastic cover & steam-cooking attachment
- + Acoustic signal at the end of cooking time
- + Measuring cup with egg piercer
- + Removable egg support

POWERFUL JUICER

REFRESHING HEALTHY

HEALTHY, DELICIOUS AND NUTRITIOUS DRINKS ARE EASILY AND QUICKLY SELF MADE WITH JUICERS BY CASO.

**Fit and healthy with fresh juices**

Fruits and vegetables have many essential nutrients which are retained 100% during self-made juice. The contained enzymes act as the spark for a vital metabolism to process vitamins and minerals. In the industrial produced juices, these nutrients are enormously reduced as during the processing chain, cold and hot temperature fluctuations affects the ingredients.

Strong performance with great juice yield

The CASO juicers work with perfectly balanced and high-torque engines. This means that according to the juicing the force is used ideally. This allows a quick result and a very high juice yield.

Versatile & delightful

With a CASO juicer there is no limit to the imaginable to enjoy and live every day vital & healthy: You can create delicious drinks with all kinds of fruits or vegetables: power drinks, diet drinks, breakfast juices, smoothies and much more!

Comfortable, clean and quiet

The electric juicers of CASO offer a high comfort of use:

- + Clean & fast juicing
- + Easy cleaning of individual components
- + Low noise (particularly the Slow Juicers)

High-end processing

All components finished sophisticated, are very robust and made from high-quality materials (sieves, pressing screws, etc.). The high design and product quality underlining our principle: the best products and easy to use for our customers!

**Centrifugal technology**

Electronic juicers with centrifugal technology are well-established and recommended for daily use. Filled through the feed shaft, the fruit is crushed by a friction disk. Then the precious fruit juice is ejected out from the fruit pulp in the centrifuge with high rotations.

Clean working

A fine sieve retains the pomace ejection. The residues are collected in an integrated or external pulp container. Different fruits with soft or hard flesh can be processed easily.

FRUIT & VEGETABLE JUICER

PJ 800

Item 3520

The PJ 800 CASO is a powerful and compact juicer. With the external pomace container, a large feeding shaft, with a very practical operating and LED lighting it is the ideal entry-level unit for fast and high juice yield.

- + **High-quality juicer with a powerful 800 watt motor with 8.000 to 15.000 revolutions / min.**
- + Modern and very practical design
- + 75 mm large feeding tube for whole fruits, such as apples, pears, carrots, etc. - no pre-cutting or peeling is necessary
- + Stainless steel micro sieve for clear and intense tasting juice
- + Large residual container for approx. 2.0 L pomace ejection
- + **4 adjustable speed levels, for soft or hard fruits and vegetables**
- + Juice spout with drip stop
- + LCD display and buttons with blue LED lighting
- + Premium-quality stainless steel housing
- + Overheat protection and safety lock
- + Individual components easy to clean
- + Juice jug 1,1 litres

FRUIT & VEGETABLE JUICER

PJ 1000

Item 3505

- + **High-quality juicer with powerful 800 watt motor with 8000 to 15000 revolutions / min.**
- + Modern and very practical design
- + 85 mm large feeding tube for whole fruits, such as apples, pears, carrots, etc. - no pre-cutting or peeling is necessary
- + Stainless steel micro sieve for clear and intense tasting juice
- + Large residual container for approx. 2.5 L pomace ejection
- + **4 adjustable speeds for soft or hard fruits and vegetables**
- + Overheat protection and safety lock
- + LCD display and buttons with blue LED lighting
- + Juice spout with drip stop
- + Premium-quality stainless steel housing
- + Individual components easy to clean
- + Juice jug 1.1 liters

Premium products with premium technology: Slow-Juice technology: More gently!

Juicing with slow juicer devices the juice will be more gently prepared and the juice yield optimized. The products are powerfully crushed by a "screw press" so that vitamins, antioxidants, flavorings and dye carrier are preserved. Thereby the cell structures of the ingredients are retained and the juice is not swirled with oxygen.

Higher juice yield and quieter

The ratio of pulp and juice is particularly well-balanced and tasty while juicing with slow juicer. The powerful engine allows a quiet, pleasant juicing.

CASO SLOW JUICER

SJ 200

The SJ 200 works very gently and reliably, offering a very high juice yield. The juice and the residue are collected in containers: This enables simple and practical handling.

- + **Slow Juice Technology**
- + **Modern and very practical design**
- + Very high juice yield
- + Stainless steel housing
- + Stainless steel micro sieve
- + Quiet and strong 200 watt motor with 90 rpm
- + Two step safety start system
- + Easy to assemble, disassemble and clean
- + Juice jug and pulp container

Item 3500

Indulgent with SLOW JUICE TECHNOLOGY
Obtain nutrients to 100%
Very low noise
Extremely high juice yield

CITRUS JUICER

FOR SMALL AND LARGE FRUITS

Item 3540

POWERFUL ELECTRIC DESIGN CITRUS JUICER

CP 200

Soft touch handle with automatic start-up

- + Powerful electric citrus juicer with stainless steel case
- + **Ideal for all kind of fruits**
- + Soft touch handle with automatic start-up (at slight pressure) for easy handling
- + Stainless steel sieve insert
- + **Very solid universal pressing cone for all common citrus fruits from lime to grapefruit**
- + Very easy cleaning, removable components
- + Low noise motor
- + Drip stop spout
- + Suction feet to secure stability

HIGH SPEED SMOOTHIE BLENDER

A FRESH SMOOTHY IS REALLY HEALTHY - AND EXTREMELY COOL

Healthy, fresh and vital

The power blender from CASO are your perfect companion for a vital and active life. In the shortest time you can prepare tasty, nutritious and rich in vitamins drinks and smoothies. Anyone who eats healthy feels better and is rarely sick. Awake your health!

Strong power pack

30.000 rpm ensure a complete processing of the ingredients. All drinks and smoothies will be perfectly prepared. Especially green smoothies need to be mixed by a high performance to achieve the full taste and the maximum of health effect.

More rotation, more vitality

The high rotational speed ensures that the vegetable or herb fibres will be processed in a required consistency. Only just at 25.000 rpm the cell walls made of cellulose from the plant cells will be broken and the vital substances will be made accessible for the nutrition so that the bioavailability of the nutrients will be increased.

High-end processing

All components are high-quality processed, very strong and made of high-quality components. The high design and product quality underscores our principle: The best product and operation comfort for our customers!

- + Easy cleaning - easy disassembly of the blade
- + Dishwasher-safe glass jar
- + Overheat control and double safety lock

HIGH SPEED SMOOTHIE BLENDER

B 2000

Item 3614

**32.000 revolutions / min.**

- + **Powerful blender with 32.000 rpm**
- + Solid brushed stainless steel housing
- + 2.000 watt motor
- + Large stainless steel blades, ideal for ice crushing
- + Infinitely variable speed with manual control dial
- + **Pulse function**
- + Measuring cup and fill cap with water splash protection
- + High-quality, large mixing bowl - 2,0 l
- + Soft touch handle
- + Stand-suction - feet for secure grip on surface

**PowerBlender with SPIN CONTROL 32.000**

Only high-performance blender with minimum 25.000 rpm are able to prepare 100 % green smoothies. The plant cell structures will be broken and the vital substances can be absorbed by the body.

Maximum standards of quality of CASO = maximum enjoyment

HIGH SPEED SMOOTHIE BLENDER

30.000 RPM – CHAMPIONSHIP

**Fit & healthy!**

A fresh smoothie before exercise is a perfect source of energy and vitality!

The winner of the German Design Awards Special 2017 demonstrates its qualities: Perfect forms, a state-of-the-art touch display with many multi-mix programs and a slimline mixing container. And don't forget: 30,000 revolutions per minute for the complete use of all the vital substances of the green ingredients - but this is also difficult to see with the naked eye.

GREEN SMOOTHIE

INGREDIENTS

2 handfuls of lamb's lettuce
1 banana, peeled and diced
1 small apple, diced
½ a mango, peeled & diced

PREPARATION

Mix all the ingredients well.

30.000 rpm

Item 3615

CREAM OF MUSHROOM SOUP WITH PARSLEY ROOT

INGREDIENTS for 4 to 6 portions

5 white mushrooms
 5 brown mushrooms
 1 shallot
 1 glass of chanterelles, drained
 1 parsley root
 800 ml of chicken broth
 1 garlic clove, peeled
 200 ml of cream
 3 tablespoons crème fraîche
 Salt, pepper

PREPARATION

Clean the mushrooms and the shallot, chop them coarsely. Briefly sauté the mushrooms, chanterelles, shallots and garlic in a pan with a little oil. Add broth, cream and crème fraîche to the CB2200 and start a "soup programme". Add a root of parsley. After 5 minutes, add the mushrooms and allow the programme to continue running. Season with salt and pepper. Serve with croutons.

SNACKS LIKE WE LOVE 'EM

DESIGN OVEN

TO 20

Fresh buns for breakfast? Or a tasty "afterwork-snack"? At any time the design baking oven TO 20 has a reliable size for snacks and more.

- + **Cool-Touch housing (extra isolated housing analogous to the EK1 standard) for particularly reliable baking and grilling.**
- + Capacity: about 20 liter*
- + Output: ca. 1500 Watt
- + **5-fold function: Convection, rotisserie (with motor), top heat, bottom heat, top and bottom heat**
- + Interior illumination
- + Timer 0 – 120 min.
- + Temperature control from 70°C up to 230°C
- + Incl. baking tray and roasting grill
- + Crumb tray
- + Stainless steel heating elements
- + Also suitable for standard frozen pizza
- + Practical removal device

Item 2970

DESIGN OVEN

TO 26 ELECTRONIC

Whether you are making crispy pizza, juicy roasts and casseroles or delicious cakes. With TO 26 design oven, great dishes can be created at the touch of a button – a plug is all you need.

- + **Extra heat-isolated housing**
(according to latest EK1 standards)
- + Capacity: approx. 26 liter*
- + Power: approx. 1500 watt
- + **5 functions: Convection, rotisserie (with motor), upper heat, lower heat, upper and lower heat**
- + Incl. several automatic programs
- + **Easy-to-use sensor touch control**
- + Interior illumination
- + Programmable timer 0 – 4 h 59 min
- + Precise temperature control from 35°C up to 230°C
- + Incl. enamelled baking tray and grill rack
- + Incl. crumb tray
- + High-quality stainless steel heater
- + Useful take-out device

Inclusive pizza stone

No danger of burning on the housing **

DESIGN OVEN

TO 32 ELECTRONIC

With its extra-large cooking space with a capacity of 32 litres, the preparation of larger snack portions also no longer presents any problems. Or how about a crispy grilled chicken from the rotisserie?

Description like TO 26 Electronic, additional:

- + **Capacity: approx 32 liter***
- + **Power: approx 1700 Watt**

Item 2970

Timer 0 – 120 minutes

Practical rotisserie (with motor)

*in accordance with the manufacturer

**according to EK1-Standard for particularly safe baking

PROCESSING MEAT & FOOD STUFF

IDEAL FOR PERFECT STEAKS & GOU

Item 2835

PANINI GRILL & GRIDDLE

BG 2000

Precise and neat handling.
Excess fat is collected separately

Who wants the steak cooked perfectly to the point obtains with the BG 2000 a product with high and professional claim. A high cook performance, a timer, automatic functions and variable opening angle provide versatile applicability. Intense heat from above and below immediately closes all the pores, so that the meat remains juicy and does not evaporate the juices while searing on one side. All the essential vitamins, minerals and flavors are preserved. Guarantees fast and juicy culinary experience.

- + Perfect for making grilled sandwiches and can be used to grill meat or vegetables
- + Set up in three positions: closed, open 90°, open 180°
- + Low fat grill – Sloping grooves to drain the grease efficiently for low-fat grilling
- + Declined surface with oil drip tray for low fat cooking
- + **Non-stick grill/griddle plate for easy cooking and cleaning**
- + Temperature control knob and power-on indicator
- + Timer to 15 minutes adjustable
- + Power: 2000 watt

KITCHEN SCALE

WE TAKE CARE FOR
EVERY GRAM.

DESIGN KITCHEN SCALES WITH LARGE SURFACE

L15

**Design kitchen scale**

Item 3292

For enjoying the baking: A scale that can weigh any weight up to 15 kilograms and has enough space for big bowls.

- + **Design kitchen scale with large weighing surface (approx. 30x22 cm)**
- + **Weighing capacity of maximum 15 kg**
- + Precise weighing sensor in 1g increments
- + Elegant touch operation
- + **Big, clear and readable display**
- + Tare function
- + **Hold function** (can be switched off): The display permanently shows the last weight recorded if switched on (weighing still possible / reset by tare key)
- + Weighing surface with brushed stainless steel look
- + Battery and overload indicator
- + Automatic shutdown

4 x 1.5 V AA

Batteries not included

DESIGN KITCHEN SCALE

L20

High quality glass surface

Item 3293

- + Design kitchen scales with large weighing surface
- + **Weighing capacity of maximum 20 kg**
- + Precise weighing sensor in 5g increments
- + Intuitive sensor touch control
- + Big, well readable display
- + Practical tare function
- + Battery and overload indicator
- + Automatic shutdown

DESIGN KITCHEN SCALE

F10

Item 3260

The F10 has a large, mirrored glass weighing surface. The bright blue display is integrated into the weighing area.

- + Large, mirrored surface
- + Weighing scale up to 10 kg: 0 – 5 kg in 1 g / 5 – 10 kg in 2 g increments
- + Units in either grams or ounces
- + Very accurate load sensor
- + Elegant touch operation on the sides
- + Tare function
- + Battery and overload indicator

DESIGN KITCHEN SCALES

POWER YOU CAN TURN UP

Energy Technology

By turning the energy wheel, energy is produced for one minute.

DESIGN KITCHEN SCALES

KITCHEN ENERGY

- + Maximum efficiency and minimal environmental impact (no use of batteries), so sparing of the environment and sustainable
- + Scales which can weigh up to a maximum of 5 kg
- + Accurate weighing sensor which is in 1 g increments
- + Good quality surface made of brushed stainless steel
- + Digital display, incl. a display showing the energy produced
- + Extremely long life

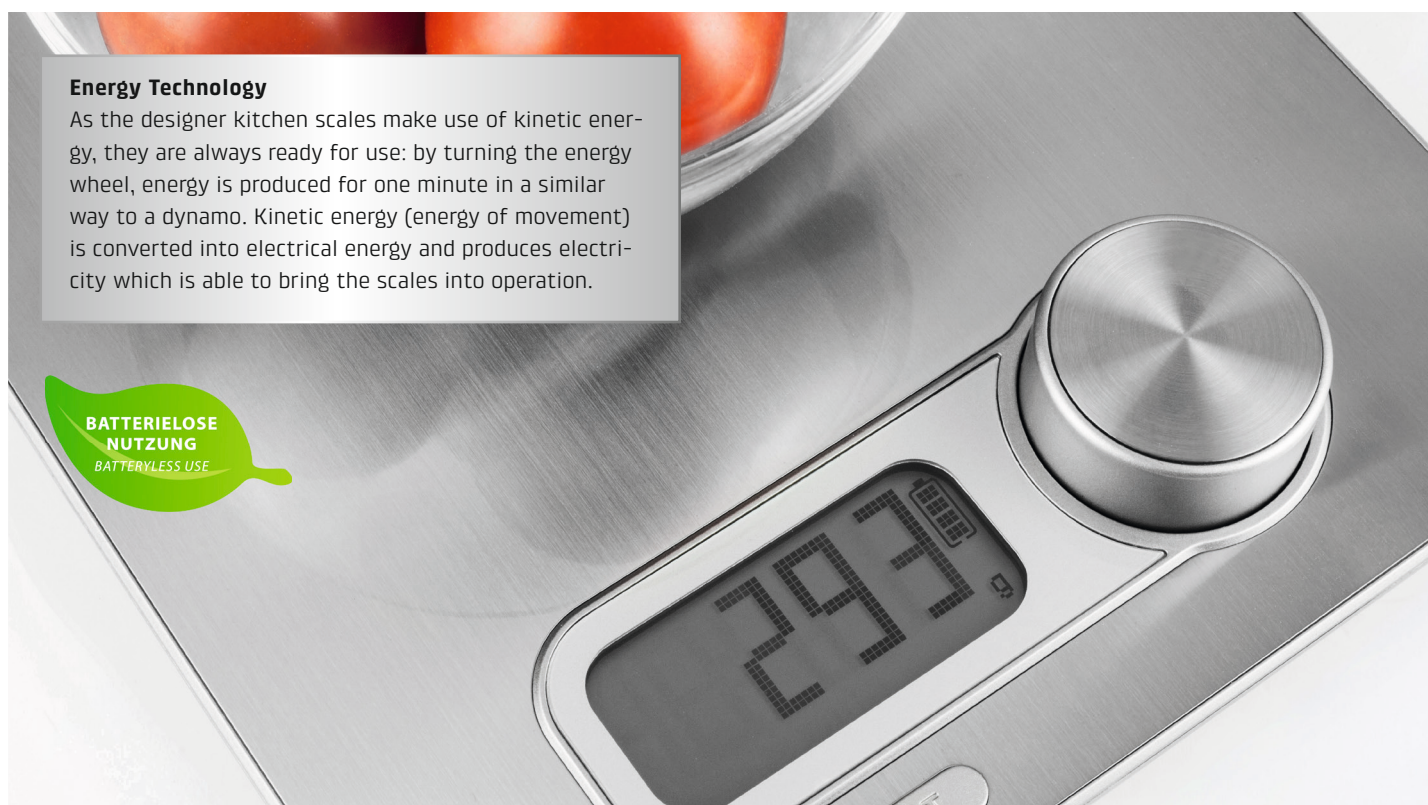

Item 3265

Energy Technology

As the designer kitchen scales make use of kinetic energy, they are always ready for use: by turning the energy wheel, energy is produced for one minute in a similar way to a dynamo. Kinetic energy (energy of movement) is converted into electrical energy and produces electricity which is able to bring the scales into operation.

BATTERIELOSE
NUTZUNG
BATTERYLESS USE

LARGE VISIBLE DISPLAY

B5

B5 - Precision Kitchen Scale

B5 - Precision Kitchen Scale that accurately measures in 0.5 g increments, is precisely manufactured with a stainless steel frame and shows the weight on a fold-out display (portrait display, like professional scales). You retain, even at high bowls, always the overview! Ideal for weighing spices, flavours or concentrates.

- + Big, folding scale, ideal for baking
- + **Product design by Bjørn Blisse**
- + Stainless steel frame
- + Large and clear LCD display
- + Exact weighing sensors in 0.5 g increments
- + Weighing scale up to 5 kg
- + Elegant touch operation
- + Tare function
- + Battery and overload indicator

BODY SCALES

ALWAYS READY FOR USE: BODY ENERGY TECHNOLOGY

Energy Technology

By activating the power button, energy is generated for one minute. Kinetic energy (energy of movement) is converted into electrical energy and, as a result of activation of the power button, kinetic energy generates electricity which brings the scales into operation.

BODY SCALE

BODY ENERGY ECOSTYLE

BATTERIELOSE
NUTZUNG
BATTERYLESS USE

The Body Energy Ecostyle body scales fits well in any bathroom with its large transparent weighing surface.

- + **The design body scale is always ready for use due to the body energy technology:** Energy is generated for one minute by pressing the power button. Kinetic energy (energy of movement) is converted into electrical energy and thus generates electricity through the power button to be able to make use of the scales.
- + Maximum efficiency, minimal environmental burden (no use of batteries), therefore environmentally-friendly and sustainable
- + High quality all-glass surface
- + Extremely long service life
- + Digital display including an indicator of the energy generated
- + Up to 180 kg in 100 g increments

AIR HUMIDIFIER

AIR VITAL - FOR COMFORT LIVING

Item 5400

Air Vital

With AirVital you create your own individual room climate for humans, animals and plants. The desired climate is created by the outpouring of water vapor exactly according to your settings between 40 – 80 % humidity. Through the Ionization-function bacteria and dust are filtered from the air.

- + For rooms up to 40m²
- + Variable steam volume (level 1 – 3)
- + Adjustable air humidity from 40 – 80 %
- + 360° rotatable water steam spout
- + 1 – 12 hours timer with end signal

Item 5410

Air Vital PRO

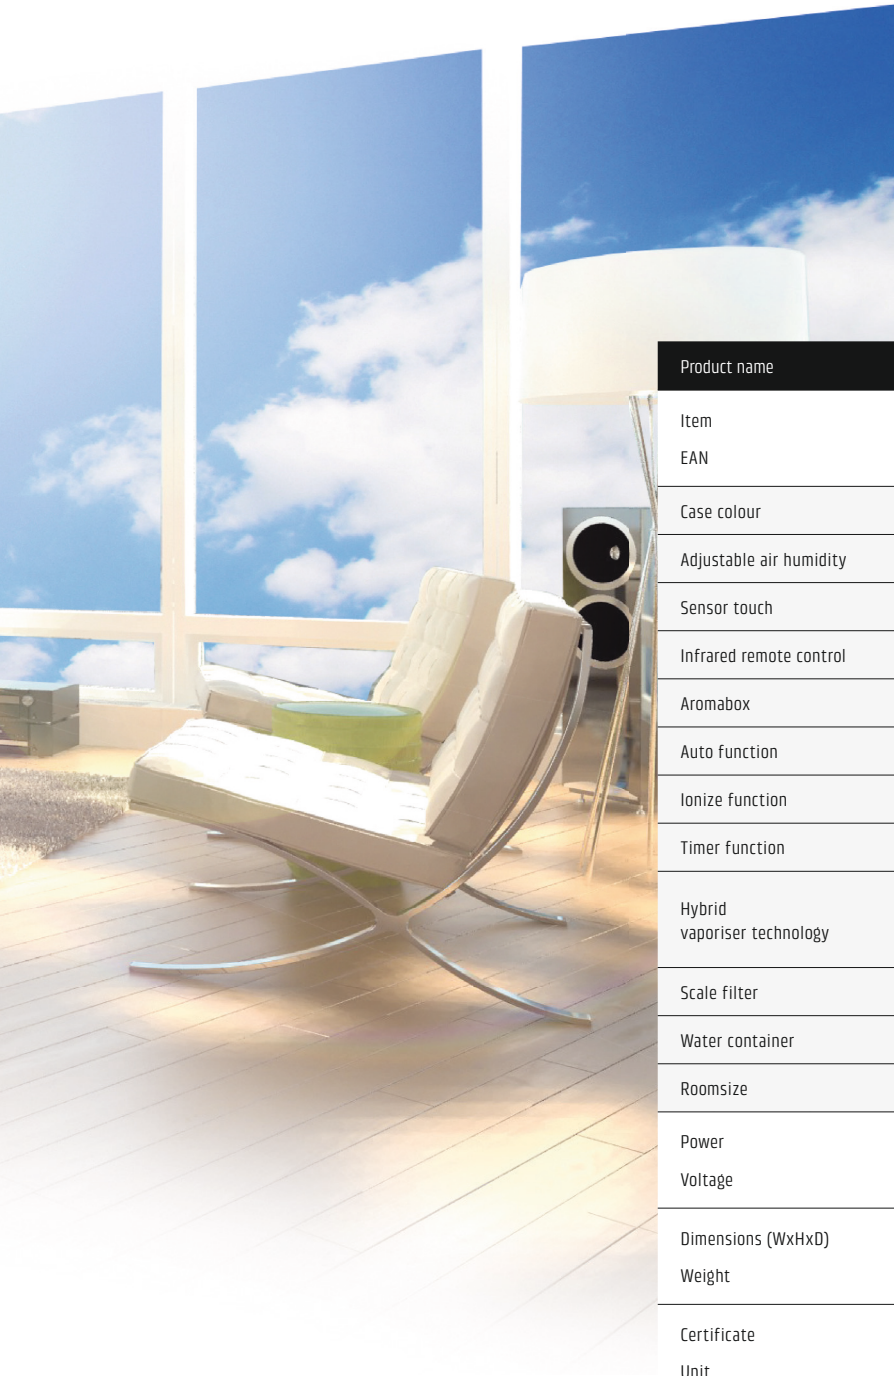

The new hybrid evaporator technology creates ultra fine water vapor. The AirVital Pro-regulates in rooms up to 50 m² automatically the humidity between 55 and 65 % – for an absolute comfort climate.

In addition, the aroma function enables fine distribution of watersoluble aromatic oils, that way the rooms get a wonderful atmosphere. The integrated anti-scale filter protects against calcification of the equipment.

- + Variable steam volume with hybrid technology (level 1-3)
- + Adjustable air humidity from 40 – 80 %
- + Integrated anti-scale filter
